

SKYLINE PARTNERS - PROJECTS

“...The project leadership we received from Skyline Partners was invaluable – the best of the best...”

*Per Johanson
Global Facilities and Real Estate*

PROJECT INFORMATION

Architect: DES

Contractor: Devcon Construction

Size: 125,000 s.f.

Project Costs: \$23,000,000

RAMBUS - SUNNYVALE, CA

The Rambus project was the first tenant to occupy the Moffet Towers Development. Consequently, all eyes were on us. Rambus challenged Skyline Partners with 11 months to deliver the project from inception to move in. Skyline took the challenge and moved them in the exact day they predicted 11 months earlier.

Keith DeBrine was the project manager for the project being entirely responsible for budget and schedule. The vendors Keith managed include; architect, general contractor, audio visual, data cabling, signage, security, furniture, and asbestos.

At the end of the day, Skyline Partners delivered the project under their estimated budget.

The high level of finishes and the elaborate audio visual system sets the bar for future Moffet Towers tenants.
